

ARPIT KARAN

GRAPHIC DESIGNER & VIDEO EDITOR

+91 6377467850 • arpitkaran595@gmail.com • work.with.arpitt@gmail.com • arpitkaran595.github.io/arpit-portfolio/

PROFESSIONAL SUMMARY

Graphic Designer and Video Editor with 3 years of experience in visual storytelling, video editing, thumbnail design, motion graphics, and social media content creation. Combines creative design skills with hands-on experience in digital product design and development.

PROFESSIONAL EXPERIENCE

Innovana Thinklabs Ltd. | Video Editor

July 2025 — Present

Internship / Contract: July — December 2025 • Full-time: January 2026 — Present

- Produced professional video content and motion graphics for technology products, marketing initiatives, and corporate announcements under strict deadlines.
- Integrated AI-assisted editing workflows to accelerate production turnaround while enhancing visual pacing and impact.
- Maintained visual quality and brand consistency across diverse social media deliverables in close coordination with marketing teams.

Sristi Kalyan — YouTube | YouTube Editor & Designer

April 2025 — June 2025

- Edited health and wellness YouTube videos with a focus on visual clarity, storytelling, and audience retention.
- Designed high-impact YouTube thumbnails in Photoshop and Figma to optimize click-through performance and channel branding.

Explore Epic — YouTube | YouTube Editor & Designer

2023 — 2025

- Directed end-to-end video editing and visual presentation for YouTube content, focusing on narrative pacing and viewer engagement.
- Created custom branded thumbnails and channel graphics to build a cohesive, recognizable visual identity.

FEATURED PROJECTS

Open Compress | Desktop Application • Product Design & Development

- Designed and developed a desktop video compression tool using Tauri, Rust, React, TypeScript, and FFmpeg for local, private media processing.
- Implemented precision compression controls by target file size (MB) and percentage reduction, multiple video format support (MP4, MOV, MKV, WebM), resolution scaling, and video trimming.

ImageMint | Web Application • Design & Development

[Live App ↗](#)

- Designed and developed a browser-based image optimization tool featuring client-side compression, format conversion (WebP, AVIF, PNG, JPEG, PDF), custom quality settings, target file-size controls, resizing, and batch export with 100% in-browser privacy.

Yogesh Naharwara | Personal Portfolio Website • UI/UX & Development

[Live Site ↗](#)

- Designed and developed a responsive personal portfolio website in Framer for a web developer featuring interactive project showcases, a structured skills section, and a polished presentation of the developer's work.
